The Gilbertson Group Teams Up With SafetyCare

Systems Integration Company Will Offer SafetyCare's Security Monitoring to Customers

COATESVILLE, PA– Feb. 19, 2008 – The family-owned systems integration company The Gilbertson Group (TGG), of Coatesville, PA, announced today it has joined SafetyCare™'s national Authorized Partner Program. TGG will now offer SafetyCare's security monitoring and emergency response communication services to its customers.

SafetyCare is a new generation in security, demonstrating how traditional alarm monitoring, by itself, is obsolete. Unlike traditional security monitoring, SafetyCare provides clients with immediate access to certified Emergency Medical Technicians (EMT).

Matthew R. Gilbertson, president of TGG, said working with SafetyCare will help his company provide its customers with efficient, reliable and full-featured security systems.

“The SafetyCare product helps us fill an important niche in the physical and electronic security systems business,” Gilbertson said.

TGG is a systems integration company specializing in physical and electronic security for Mid-Atlantic region customers. The 16-year-old company is family owned and operated along with the help of 45 professionally-trained employees.

Gilbertson believes TGG's partnership with SafetyCare will help his company increase sales and service to the community.

“We're confident the SafetyCare product will be relied upon more and more as the security industry matures,” Gilbertson said. “We are pleased to provide it for our customers.”

SafetyCare General Manager Michael Bodnar is proud to partner with such an innovative systems integration company.

“Our Authorized Partner program is designed to provide select professionals with opportunities to distribute SafetyCare’s one-of-a-kind services to their customers,” Bodnar said. “Such an arrangement with The Gilbertson Group will now make it possible for TGG’s customers to reap the benefits of superior and unique security services.”

SafetyCare customers access a 24-hour-a-day safety and security system by simply pressing a button or calling from anywhere in the world. They gain voice contact with a certified Life & Safety EMT at the SafetyCare Response Center, based in Reading, PA. The highly trained response team – all-certified EMTs – has years of experience working with people needing immediate assistance.

To learn how to become a SafetyCare Authorized Partner, call 800-483-0888 or visit www.safetycare.net. For further information on The Gilbertson Group, please visit their website at www.gilbertsongroup.com or call (610) 466-9600.
